Renowned German furniture brand raumplus offers comprehensive home solutions ranging from doors, wardrobes, kitchens, and cabinets to other furniture essentials. The hardware, accessories, and panels used by raumplus are all imported from Europe, guaranteeing top-tier quality and ultimate sophistication.

With a legacy spanning more than 35 years in doors and cabinet manufacturing, the brand has established global recognition for its premium door and wardrobe designs, which have become its best-selling products. With versatility in mind, its sliding doors and swing doors are outfitted with premium hardware to ensure the smoothest operation, while being able to adapt to challenging architectural features such as corner spaces and angled ceilings.

Its wardrobe systems, meanwhile, are a testament to its dedication to maximising storage without compromising on style. They feature adjustable shelving and an array of unique accessories that enable easy creation of custom walk-in closets and built-in wardrobes, designed to make the most of every inch.

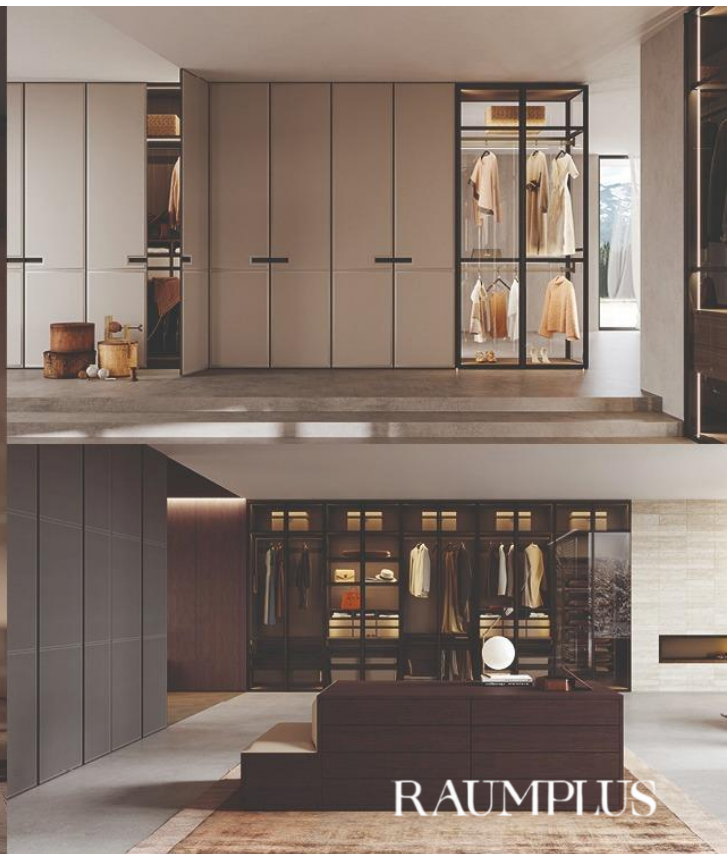

Embracing the minimalist Bauhaus approach, German design director Kathrin Strauß imbues every product with understated elegance. The door panels, as well as other accessories, come with a leather finish option that lends a touch of sophistication to any space.

To maintain visual consistency, furniture pieces across the raumplus range can be mixed and matched according to users' preferences, offering them bespoke solutions that combine form and function with a timeless appeal. raumplus furniture is available at iLiving.
